

## **INTEGRAL POLICY OF QUALITY, ENVIRONMENTAL and HEALTH AND SAFETY POLICY**

Indumetal Recycling SA is a specialized industry with an extensive experience in the integral handling of WEEE (Waste Electrical and Electronic Equipment), complex scrap, and logistics, household, industrial, commercial or public origin; and also in the on-site dismantling of industrial facilities, telecommunication exchanges or other type of installations.

The main target of the board of Indumetal Recycling SA is to supply products and services that, apart from being competitive in price, meet our customers` requirements, and the protection of the environment and our workers safety.

On these grounds, Indumetal Recycling SA is committed to keep and continuously improve an Integrated Quality, Environmental and Health and Safety Management System.

Everyone in charge must be familiar with the requirements of this Compliance Scheme and will know about the content of the processes that affect his area of responsibility, being responsible for its compliance.

At the same time, everyone in charge will make sure that the Policy is understood, applied and updated by everyone in the Organization, encouraging each worker to assume his own responsibilities of Quality, Security and respect for the environment, from his own position.

Faithful to the Company`s Principles, the Board is committed to:

- Carry out a Management based on a continuous improvement plan and on the prevention of pollution and accidents
- Assure the compliance with current legislation applicable to the company`s own activity, products and services, as well as with any other the commitments Indumetal Recycling SA may subscribes in this field.
- Establish and periodically carry out a System review by the Board, to assure that the targets and goals of the Company are being achieved aiming for a continuing improvement.
- Reinforce internal communication networks, so that all the staff is duly informed at all the times.
- Perform the most adequate and environmentally respectful Waste Management of all own generated waste due to the company`s own activities, encouraging the practice of its reutilization, recycling and recovery.
- Strengthen all improvement elements or aspects that are introduced related to our own activities and to our customers` expectations and needs.

Asua, 5<sup>th</sup> July 2007.
